### Profile

I'm a software developer passionate about turning ideas into reality through clean, efficient code. I specialize in building scalable web applications with React, Next.js, and TailwindCSS, while crafting high-performance APIs with Node.js, Laravel, and .NET. My expertise extends across databases like MySQL, PostgreSQL, and MongoDB, ensuring optimized data solutions. With a strong foundation in JavaScript, TypeScript, PHP, and C#, I thrive on solving complex problems and delivering seamless digital experiences. Constantly learning and evolving, I focus on building robust, future-proof solutions that drive innovation.

### Professional Experience

#### Frontend Developer, *Vegeel*

Lagos, Nigeria

As a skilled Frontend Developer at a multi-tenancy agency, I excelled in crafting and optimizing user interfaces for diverse clients, leveraging expertise in React, JavaScript, HTML, and CSS. I worked closely with UX/UI designers and backend developers to ensure seamless user experiences and efficient data integration, delivering high-quality, scalable solutions that met the unique needs of each client.

#### Web Dev. Instructor, *Bafuto Institute of Information Technology*

Lagos, Nigeria

As a passionate and dedicated web development instructor at Bafuto Institute, I had the privilege of nurturing the next generation of digital creators and innovators. My role encompassed imparting comprehensive knowledge and practical skills in HTML, CSS, JavaScript, and other essential web development technologies to students, fostering a dynamic and engaging learning environment that empowered individuals to explore the boundless possibilities of web development.

### Fullstack Developer, Ventures Consultancy Services

India

As a Full Stack Developer at Ventures Consultancy Service, I designed, developed, and deployed a Plot Management System using React and Node.js. I collaborated with teams to identify project requirements, developed responsive front-end interfaces, and implemented robust back-end APIs to manage plot allocations, bookings, and other related processes. I applied my technical skills to deliver a high-quality solution, ensuring timely project delivery and alignment with project goals.

### Umbraco Developer, Tenece

Nigeria

As an Umbraco Developer at Tenece, I worked on a project for Seplat Energy, designing and implementing a customized web solution using Umbraco technology. I leveraged my expertise in Umbraco to deliver a scalable and user-friendly platform, meeting the client's specific requirements and enhancing their online presence.
