### Profile

---

Driven Junior Full-Stack Developer, eager to acquire hands-on experience and contribute to innovative projects within a collaborative environment. With a robust foundation in both front-end and back-end development, I am passionate about crafting scalable, efficient, and user-centric web applications. As a fast learner with strong problem-solving abilities, I am committed to staying current with emerging technologies and best practices. I am seeking opportunities to leverage and enhance my skills while making a significant impact on pioneering projects.

### Skills

---

#### JavaScript (ES6+)

My proficiency in JavaScript enables me to create responsive, feature-rich web experiences, significantly enhancing user engagement and overall application performance.

#### Version Control System

As a dedicated full-stack developer, I have honed my skills in using Git, a distributed version control system, and its command-line interface, Git Bash, to efficiently manage and track changes in software projects.

#### Proficiency in Microsoft Office Suite

I possess strong skills in Microsoft Office Suite, including Word, Excel, PowerPoint, and Outlook. My expertise includes creating and formatting documents, managing data with advanced spreadsheet functions, designing impactful presentations, and efficiently handling email communications. These skills enable me to effectively manage tasks, streamline workflows, and enhance productivity in various professional settings.

#### React.js

My experience with React.js includes developing interactive and reusable UI components, managing state, and integrating external data sources, resulting in seamless and responsive web solutions.

#### Responsive Design

As a forward-thinking full-stack developer, I have developed expertise in responsive design, a crucial element of modern web development. My proficiency includes creating user interfaces that seamlessly adapt to various devices and screen sizes, ensuring an optimal viewing experience for end users.

## Professional Experience

---

### Frontend Developer, *Vegeel*

Lagos, Nigeria

- Frontend Developer at a multi-tenancy agency, specializing in building and optimizing user interfaces across various clients using React, JavaScript, HTML, and CSS.
